ello fellow Industrial Engineers! Where were you the week of May 20<sup>th</sup> ?? Your local IIE Chapter 38 was representing at the 2013 National IIE conference held in San Juan, Puerto Rico! President Eric Situmbeko was accompanied by fellow board members Tracey Bauer and Jeromy Knapp. The trip started off with Volunteer Leadership Training (VOLT), included the opportunity to take in a variety of Applied Solutions and Vendor presentations and accompany Regional Vice President, Dan Thury, for nightly networking with industry and academic peers from all over North America. And, of course, one can't make the trip to San Juan, Puerto Rico without taking in a little local culture and sightseeing!

our local IIE Chapter was also honored to accept the "Gold" award for the fifth year in a row. This award was earned by only four other chapters nationwide. This award is a result of a point-based assessment on chapter activities such as newsletters, chapter meetings, local outreach and volunteering, bestowing student financial assistance and maintaining membership levels. Want to know more

and/or get involved? Contact your local board of directors at [IIE Twin Cities@gmail.com](mailto:IIE Twin Cities@gmail.com) or start a discussion with any one of us at the next event!

Did you attend and we missed you?? Share your story on Linked In or <http://www.iietwincities.org/>.
